

Kettle Moraine Meadows Sales Policy

Rabbits

Show (S) - This rabbit has a good type and coat following the SOP and has no known DQ (eye color, toe nails etc) and is a showable color. This rabbit will be sold with pedigree. There is no guarantee that the rabbit will place well on the show table. This rabbit will not have any Vienna markings

Brood (B) - This rabbit is of good type and coat following the SOP but does have a DQ or is an unshowable color. This rabbit will be sold with pedigree.

Wooler (angora only) (W) - this rabbit will not be sold with a pedigree. This rabbit doesn't fit SOP type perfectly but will have a good wool coat that is great for spinning.

Pet (P) - This rabbit will not be sold with a pedigree. This rabbit doesn't fit SOP type but is still healthy and would make a great pet.

Rabbits are sexed at 4 weeks and can have a deposit placed at 6 weeks. We do have a waitlist but without deposit the rabbit will not be held.

All of our rabbits come with transition feed (Kent Show Hutch Deluxe) and will come with pedigree if they are sold with one. If the rabbit is going on transport, the rabbit must be paid in full before leaving. If transport is not within 3 weeks of the rabbit turning 8 weeks old or being purchased, there is a charge of \$15 per month until the rabbit leaves and will need to be paid when the rabbit is purchased.

Prices
